

Welcome to Mobile Banking!

We are pleased to announce that Mobile Banking has arrived. First National Bank clients can now do even more banking on the go. On January 1, 2012, we launched the “Triple Play” - text banking, mobile website, and iPhone/Android apps. Mobile Banking provides convenient access to account balances, transaction history, transfers and bill pay - all through the convenience of your mobile phone.

Text Banking. Text us to receive your balance, account history or to transfer funds. All you need to access Text Banking is a text plan on your mobile phone. No data plan required.

FNB Mobile. If your mobile phone has a web access, visit www.FNBames.com on your phone to access Online Banking. Get your account information anytime, anywhere with the FNB Mobile. View balances, make transfers, pay bills and find the nearest ATM locations, all in a format designed for mobile phones.

Mobile Apps. Get your account details anytime, anywhere with the FNB's free mobile app, custom-designed for your iPhone or Android.

Get Started....

- To begin Text Banking, login to Online Banking from your PC. Click on the “Mobile Banking & Alerts” tab. Follow the instructions to register your mobile phone.
- To use FNB Mobile, visit www.FNBames.com on your phone and enter your Online Banking password information.
- If you are an iPhone or Android user, visit your app store, search for “First National Bank Ames” or “First National Bank Ankeny” and download the app.

All of these new services are simple to use, secure and FREE. More information about the “Triple Play” is available at www.FNBames.com.
